

# Models

Aussie Swag Campers has three top of the line models, the *Rover LX*, *Explorer* and the *Ultra*. All models have the same tent and body structure with independent trailing arm suspension for worry free travel over the roughest roads. They are the result of 25 years manufacturing experience and extensive use in remote and arduous conditions. All models come equipped with quality features that let you fully enjoy your travels.

Some of the standard features on all models include:

					
Built in <i>tropical roof</i> and roof vent to minimise condensation, as well as providing added weather protection, extra coolness and ventilation by convection.	A hot dipped undercarriage and suspension that eats up corrugations and other harsh conditions. Stub axle is removable.	Superb foolproof battery and electrical system for reliable power in remote locations.	A deluxe easy care stainless steel slide-out pantry with swing-around kitchen. Frees up space under the awning and is out of the weather.	A 280L slide-out, under bed, storage drawer which can be accessed through the tailgate when the camper is closed. Easy to pack for a weekend away or ready access while on the road.	A large (2.14m x 5.2m) annex roof covering the kitchen and fridge area. A second smaller awning (1.4m x 5.2m) zips onto the far side or can be used on the kitchen side for quick overnight stops.

The top of the line *Ultra* model is the ultimate in luxury, all terrain travel. The design and standard features of the *Ultra* enable the traveller to camp in remote areas for extended periods in complete confidence and with all the comforts of home. Weekend camping and overnight stops are equally enjoyable. Additional standard features in the *Ultra* include:

- Slide out 80 litre *Waeco* fridge/freezer
- Hot water heater for shower and kitchen
- Shower room with LED lighting in shower box
- 2 x 105 amp/h batteries, solar panel and *Honda* EU20i generator on slide
- 700 watt pure sine wave inverter which converts 12 volt power to 240 volt allowing the safe charging of mobile phone batteries and the use of computers and small electrical appliances
- Additional protection from the weather with two end walls, draught flap and fill in wall above the kitchen and fridge
- Aluminium mesh with rack
- Safe bolted to slide out drawer

The *Rover LX* and *Explorer* are identical to the *Ultra* but have less standard inclusions, for those people who already own a fridge or generator or who do not want all the features included in the *Ultra*. Features of the *Ultra* can be added to the other models to suit individual needs.

Refer to centre pages for full listing of inclusions, optional extras and prices.
